

Save for College Program Information Sessions

The NYC Kids RISE Save for College Program provides families, schools, and communities with a way to work together to save for their children's futures. It is a scholarship and savings program designed to make college and career training more accessible for public school students by building financial assets and expectations of success, starting in kindergarten.

This year, every kindergarten and first grade student enrolled in an NYC public school (including participating charter schools) is eligible* to participate, regardless of family income or immigration status.

Attend a virtual Information Session to learn about the Program, the benefits for your child, and how your family can participate!
